

ILLUMILITE
Wins a Buyers
Choice Award
at EXHIBITOR
2012

2nd Year in a Row!

Trade Show & Event Lighting: The Inside Track is excited to bring this innovative product to the trade show and event industry! From the exhibit floor to walls and even the ceiling, you'll be amazed by the flexibility of Illumilite Panels! They're also impact and vibration resistant, not fragile or delicate.

You can view some examples Illumilite panels being used in retail and trade show applications below. Say good bye to cumbersome, hard to install components using florescent light bulbs and hello to convenience and flexibility with Illumilite.

Simply roll out your CPT flooring on top of our Illumilite panels, plug them in and you've just created your own illuminated floor in minutes! You can even set the lights to flash intermittently and draw even more attention to your flooring or graphics.

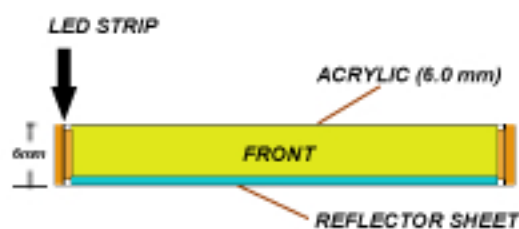

We know trade show industry needs versatile products. and in sizes ranging from 8 1/2' x 11' to 4' x 9' sheets and even 1',2',3' and 4' circles, you'll find dozens of uses for this unique product. You can easily frame them for the custom graphics and just attach them to a wall to make a light box that can be used anywhere in the booth you have electricity.

With Illumilite, the possibilities are endless...
