Flooring tips that every
exhibit house team
member should know

Your Partner for Innovative Flooring

AVOID SURPRISES: SEND THE RENDERING

- Send the full booth rendering for all inlays and printed flooring.
- Add arrows to the flooring layout to show us how you want the flooring to unroll on show site.

WHICH WAY ARE WE GOING?

Add an arrow on your layouts to show us the plank direction.

JUST GIVE ME THE FACTS

Send us the show quick facts so
we can keep an eye on your
deadlines.

BALLROOM CARPET CAN BE BRUTAL

Ballroom carpet **ALWAYS** needs sticky visqueen (aka construction film) before installation.

For rollable vinyl, place $\frac{1}{2}$ " plywood between the $\frac{1}{4}$ " padding and rollable vinyl to create a solid subfloor.

THAT WOOD HAVE BEEN NICE

- If you'll be wheeling AV cases into your booth, bring 4' x 8' sheets of plywood to place over the vinyl during install.
- Our EZ Down planks stand up to wheels and heels. These are a great choice when you have wheels in your booth.

GUESS MY WEIGHT

28 oz. and 30 oz.
carpet have
multiple uses and
are perfect for
inlays.

Use 13 – 16 oz.
carpet for aisle
carpet. This is a
great choice for
covering all that
bare concrete on
the show floor.

WALK THIS WAY . . .

We make carpet inlays easy to install with our easy-to-read layouts.

Attendees are drawn into an exhibit by paths made from rollable vinyl or carpet.

DON'T GET TRASHED

Don't want to ship flooring back from a show?

RECYCLE IT INSTEAD

We have recycling partners in Northern and Southern California, the Midwest, the Southwest and the South.

SEAMS LIKE A LONGER INSTALL

Carpet and vinyl rolls can be as long as 80' to 100' and still be easy to maneuver on show site.

EXPERIENTIAL MADE EASY

A picture is worth
1,000 words (or
booth visitors!)

We're an experiential industry, so
if the floor needs to look like a
runway, a forest, the moon or any
other cool surface—we can do
that!

YOU'VE GOT TO BE SKIDDING ME!

Skidding your flooring saves special handling charges by the general contractor and reduces the chance of your flooring rolls getting lost or separated at the advanced warehouse.

“THAT SOUNDS LIKE A PHONE CALL”

Nothing saves you time and keeps your project from going off the rails better than a conversation with your internal team or your supply-side partners.
